

TECHNICAL DATA SHEET

TB3400

The TB3400 tracked conveyor belt is characterized by a simple and reliable technology, quick to set up and operate, it reduces maintenance costs and facilitates the loading, feeding and discharging operations with crushers, screeners or any other processing equipment. The TB3400 model does not require any other mechanical rig or operator. This way, not only does it allow to work in limited access sites, but it decreases business operating costs as well.

ISUZU ENGINE		
Power	hP	28.5
Cylinders	Qty	3
Fuel Capacity	Gal	10.5
Consumption	Gal/h	1.2
Fuel Type	Diesel	
Cooling	Water	
WEIGHTS & DIMENSIONS		
Length	ft & in	11' 5"
Width	ft & in	4' 11"
Height	ft & in	7' 5"
Standard Weight	lbs	5,732
RUBBER CRAWLED TRACK		
Length	ft.	6' 11"
Width	in.	11.8"
CONVEYOR BELT ON TRACK		
Length	ft	21'
Width	ft	2'
Belt Speed	ft/min	6'
Pile Height	ft	10.5'

STANDARD FEATURES

- Autec remote control for running track and belt
